Unlicensed Insurance Companies Scored

Sale by unlicensed insurance companies with permit to do business in Texas is being investigated and warnngs issued.

A number of policies have been sold in Milam County and in Cameron. The negro population is included in the purchasers. These policies, it is said are worthless unless the companies comply with the state laws.

Laws claimed to authorize them have long since been repealed, it is said. The Texas Insurance magazine lists the illegal companies.

The District Attorney's office at Cameron is investigating.

DEMOCRAT COMMITTEE TO ARRANGE SPEAKING DATES FOR PRIMARY CANDIDATES

The Democratic Executive Committee for Milam county will supervise a program of speaking dates for candidates this summer.

This service is in line with proposals made durng the past years by the present Chairman, co-operating with the candidates who desire a more orderly conduct of the campaign to eliminate the old system of every night speakings and the attendant expense and physical burdens.

The Democratic Executive Committee assumes full responsibility for the movement. Milam county is one of the few remaining provinces where such campaign methods as we now have, obtain. In practically all counties the Democratic Executive Committee renders this service.

The committee seeks the co-operation of all candidates. The Chairman will call a meeting shortly of all candidates and seek through co-operation and tender of service to make a schedule of speaking dates. As the plans now appear, the candidates will make one appearance in each of the Justice Precincts with not more than one to two speakings a week.

These speaking dates to be advertised in advance and if the people of the communities desire they may offer and provide such entertainment as they wish.

Every night box suppers, pie eating contests, cake raffles, auctions, stage curtains, baseball circulars and donations will be discontinued if the Committee can get co-operation of candidates and the people. Suppers and every night entertainments to which the poor candidate, because of circumstances, must attend and contribute, has developed to such proportions, the method of campaigning must be changed.

No candidate, if he wishes to co-operate, may now feel obliged to such practices. He may refer all such matters to the Committee if an agreement is reached and co-operation is had with both the people and candidates and the Committee.

George Mayo Newton May Run For Office of Representative

George Mayo Newton, son of Dr. W. R. Newton, is being urged by friends over the county to run for representative to the Legislature from Milam County. The office now is held by Emory B. Camp of Rockdale.

Mr. Newton is a law student in the University of Texas and has spent four years in that school, taking up law this year. If a decision is reached he will announce within the next few weeks.

Green & Boedeker In Easter Food Sale

In this issue will be found an announcement from Green & Boedeker, enterprising young food merchants in Santa Fe Town. They announce special prices for food for the Easter table.

Code prices governing the printing industry is now giving merchants an advantage in newspaper space. The quotations for straight circular printing have increased the cost of these bills, but when in connection with newspaper space the advantage is for the merchant.

Food buyers for Easter will be glad to note the sale at this store.

BLAYLOCK CANDIDATE FOR RE-ELECTION

L. L. Blaylock, Sheriff for Milam County, is a candidate for re-election to that office, subject to the Democratic Primary election to be held on Saturday July 28, 1934.

In announcing his candidacy for re-election, Mr. Blaylock meets the wishes of hundreds of friends and supporters throughout the county who have urged him to again offer for re-election and he is deeply appreciative of this tender of support and desires to express his gratitude to the many well wishers who believe the office of sheriff should be filled by one whose experience in this office is greatly to be desired at this and at all times.

Sheriff Blaylock has a record of service as sheriff equaled by few and surpassed by none. Possessing natural abilities as an officer and a wealth of experience, he has brought to the administration of this office the best traditions of Texas and a wholesome influence for law and order together with a keen knowledge of every phase of legal work connected with the administration.

Born and reared in Texas, a citizen of Milam county for many

TO MEET APRIL 3

Young Democrats in Milam county will organize a Young Democratic Club Tuesday night, April 3, in the district court room at Cameron.

Plans for this organization were made Tuesday night of this week when some twenty or more representative young Democrats, met under call of the Executive Committee organization.

Stanton Dossett, member of the 6th Congressional Committee and Vice President of the State Young Democratic Clubs, issued the call. He has been asked by the state organization to organize a number of counties.

Burris C. Jackson of Hillsboro, Chairman of the Democratic Executive Committee for that county, was present for the caucus. Mr. Jackson directed the Roosevelt-Garner campaign in the 6th Congressional District.

The Young Democratic Clubs are sponsored by the National Democratic Executive Committee. It is the plan of both President Roosevelt and James A. T A. FISHER RESIGNS AS HEAD OF FACULTY

Thomas A. Fisher, for 10 years head of the faculty and superintendent of Cameron schools, has tendered his resignation to the board to take effect at the close of the present term.

B. F. Stewart Gives Easter Food Sale

B. F. Stewart's Cash Grocery announces a Big Easter Sale of foods for this week end. In this issue an advertisement appears quoting prices on quality foods for the Sale.

The printing code now in effect gives merchants an advantage in newspaper advertising whereas heretofore only circulars were used. Price advances in straight circular printing have made costs higher but the newspaper advertising with circulars enables the merchant to realize better distribution. Food buyers will be interested in this Easter Sale.

Ferguson Wins National Committeeship Without Opposition

JAMES E. FERGUSON — J. KEARNEY BRIM — ED. J. HUSSION

Jim Ferguson, husband of Governor Miriam A. Ferguson, was chosen Saturday as the next Democratic national committeeman from Texas by a viva voce vote of the State Democratic committee, only two or three negatives being heard. Captain J. Kearney Brim of Sulphur Springs was unanimously elected chairman of the state committee to succeed Maury Hughes, who is running for governor. Ed J. Hussion, Houston, was elected vice-chairman of the committee to succeed Mr. Brim. The meeting was held in Houston, and it was a runaway race for the Ferguson faction from start to finish. Tax Record of Milam Couuty Is Challenge to Entire State

Roy Law, Tax Collector for Milam county, in a statement of facts concerning collections, reveals a record for the county which is a challenge to all Texas. His statement follows and shows that recovery has manifested itself in tax collections as well as in business:

"In keeping with our personal convictions that tax payers and the public in general are entitled to definite information from time to time with reference to the condition of ther Tax Office records, we have compiled certain information, which we believe will be of general interest at this time. For the first comparison we have used the year 1933 as compared to the year 1924 for the reason that 1924 was the first annual tax roll with which we were connected as Tax Collector of this county, and 1933 is the latest roll of record.

In all of our tax rolls in this County there is an assessment known as the 'Unknown Roll.' All of the figures submitted have been compiled exclusive of the Unknown Rolls, since we find in our experience only a small portion of the Unknown Roll is actually due and a proper charge. All of the figures quoted are for Advalorem taxes only due on real and personal property, except wherein otherwise specified. We find the total taxable values assessed for the year 1924 to be $16,550,910.00 and for the year 1933, $14,238,049.00, a reduction in taxable values during the period named of 13.98%, and may we add here, that the gross taxable values of Milam county for 1924 were $1,379,917.00 less than the taxable values of the county for the

Rev. Wm. D. Welburn, Jr. (who says he's single)

The lady pictured above has filed suit for divorce in San Antonio, saying that she is Mrs. Wm. D. Welburn, Jr., that she was married July 25, 1933, and gave birth to a son on November 18, 1933. The Rev. Welburn, Jr., former pastor of the Government Hill Methodist Church in San Antonio, denies that he is married to her and that he is the father of her child. The plaintiff declared that the Rev. Welburn denied the marriage before his congregation on December 17, 1933, this act constituting extreme cruelty and cause for divorce. (Texas News Photos.)

BAYLOCK

(Continued from page 1)

years, he needs no written word to remind the people of his character and citizenship. His qualifications for the office he seeks are unquestioned. His record as sheriff is an established precedent for all the State. Widely known because of his service and adaptability, he commands the co-operation of peace officers everywhere and in all emergencies where detection of law violators is necessary the Milam county Sheriff can and does command every possible co-operation.

Mr. Blaylock brings to the consideration of the people a combination of fitness for the office, few men possess. He has been fair and impartial, firm and resolute when necessary, considerate and unassuming. He believes in the spirit of neighborliness and because of his fine character and understanding, he has brought to himself thousands of friends who deeply appreciate his trustworthiness and dependability.

Despite the many handicaps imposed by ill advised legislation and poor pay for officers, Mr. Blaylock has steadfastly maintaned a high and efficient record of service as sheriff. Often times at great personal expense he has upheld the law and performed his duties, never turning a deaf ear to the rights of citizens because of lack of compensation. To these and other duties he feels pledged and is always ready to give his fullest measure of attention to all details of office.

At this time, his many friends believe, it is imperative that a man of experience occupy this office. They feel that Mr. Blaylock may be depended upon at all times to know what to do and when to act, to safeguard the people and their lives and property. In any emergency of whatever nature, he would be able to apply his vast knowledge as a peace officer and in the spirit of service he submits his candidacy for re-election, pledging the people that at no time will be fail to serve them completely and efficiently.

Mr. Blaylock will make an active canvass and plans to see the voters in all sections of the county. Anything that may be done in his behalf will be greatly appreciated. In return for this continued trust he pledges a service commensurate at all times with the responsibility.

Thousands of Women Have Taken Cardui on Their Mothers' Advice

It is an impressive fact that many women have said they learned of the value of Cardui from their mothers.

What stronger evidence of her confidence in a medicine could a mother have than that she advises her daughter to take it?

Cardui is given the credit for relieving so many cases of womanly suffering that it is widely and favorably known. Druggists, everywhere, sell it.

If you are weak, run-down, suffering monthly, take Cardui. Take it for a reasonable length of time and try it thoroughly. As your health improves, you will share the enthusiasm of thousands of women who have written to say: "Cardui helped me."

A TONIC Laxative

CONSTIPATION, with the annoying symptoms that usually come with it, cuts down organic force and disturbs normal health and well-being. A thorough cleansing of the digestive tract is of great assistance in the removal of sickening constipation symptoms.

When excessive accumulated waste matter disturbs and strains the muscles of the large intestines, rendering them temporarily unable to perform their wave-like evacuating movements, Thedford's Black-Draught is useful in stimulating them to activity, which, again started, should continue regularly until some future disturbance interferes. In this way, Thedford's Black-Draught is one of the TONIC laxatives, tending, as it does, to establish a regular habit of evacuation.

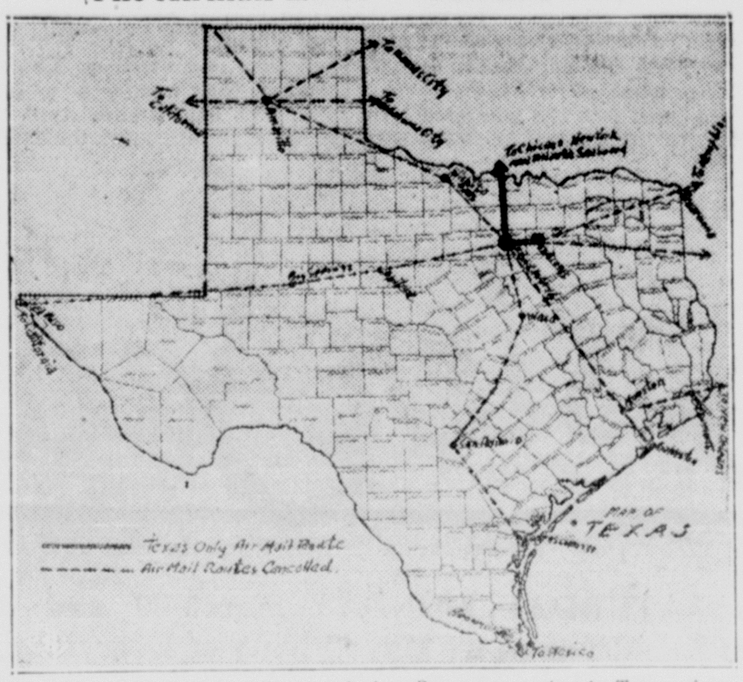
The Airmail Lines—Then and Now



The extensive curtailment of airmail transportation in Texas since the government took over the handling of this branch of mail service, is graphically illustrated above. The broken lines represent the mail lines when transported by commercial carriers. The heavy black lines are the ones now being operated by the U. S. Only Dallas and Fort Worth have airmail service. year 1913, and the gross values assessed for 1933 were $4,134,308.00 lower than the taxable values assessed for 1913, or 20 years ago. The percentage of reduction of assessed values for the year 1933 as compared to the year 1913 being 21%.

"We find the Tax Roll charge for 1933 to be $310,204.15 and for the year 1924, the corresponding figure was $434,652.00, a net reduction for 1933 as compared to 1924 of $124,447.85, or 28.64%. In comparing the tax bill for 1933 with that of 1913, 20 years ago, we use the figures for State and County purposes only as we had very little special taxes at that time, and we find the amount levied and assessed for 1933 for State and county only, to be 20% greater than for the year 1913.

"With reference to Tax Collections we find as follows: For the current year, 1933, $220,877.58 was paid in as of March 1st, 1934, leaving a total amount unpaid on this date of $89,326.57 or 28.78% of the total levied. We find an amount of $18,725.22 to be extended under the semi-annual payment law to June 30, 1934. We can estimate the percentage of this amount that will be paid in by June 30th, with reasonable accuracy, and inasmuch as June 30th is the final date to pay 1933 taxes before same are delinquent, we can make a further estimate of payments for 1933 prior to July 1st, and find the estimated delinquency for 1933 on July 1, 1934 to be approximately 21%. The average normal delinquency, as found by us in our experience, is about 12%, thus you know our delinquency for last year will be, perhaps, only about 9% above normal. In discussing delinquent tax collections have been han- years 1930, 1931 and 1932 for the reason these years are known to be the three major depression years covering the period since our Legislature first begun to extend, remit and otherwise hinder and discourage tax collections and payments and, too, it is generally known that delinquent taxes in this county were reduced to a low figure through the year 1929. The total tax roll charge for the years 1930, 1931 and 1932 was $1,136,209.92 and $1,018,726.09 of this amount is now paid in, leaving an amount of $117,483.33 delinquent or unpaid and this is 10.3% of the total tax bill for the three year period. Since June 30, 1934 is the dead line for payments under Senate Bill No. 262, which relieves taxes delinquent July 1, 1933, of the greater portion of penalty, interest and costs, we make a further estimate of delinquent tax collections by that date and find 7.2% of the taxes for the period named, will remain unpaid and delinquent on July 1, 1934. To give an idea of how delinquent tax collections hafe been handled, we quote figures for delinquent collections for the period January 1, 1933, to March 1, 1934, and show the amount of delinquent collections during this period to be $102,918.97.

Summing up the high points with reference to our analysis of the tax situation in this County, we state:

1933 values — 13.98% below 1934 values.

1933 values—21% below 1913 values.

1933 Tax Roll charges 28.64% below 1924 Tax Roll Charge.

1933 Tax Roll Charge, State and County only, 20% above 1913 Tax Roll Charge.

28.78% of 1933 taxes unpaid now 21% estimated delinquency for 1933, July 1, 1934.

10.3% total taxes for 1930, 1931 and 1932 unpaid March 1, 1934.

7.2% estimated balance unpaid for 1930, 1931 and 1932, July 1, 1934.

Other taxes collected through this office during the period January 1, 1933 to March 1, 1934 were in part:

Total for beer license, $5,955.24.

Total for occupation taxes, $248.14

Motor vehicle license fe $95,517.59.

We challenge any County of comparative size in Texas to submit a better Tax Record.

We offer above information purely in the public's interest and in connection therewith, we wish to say further, the time has arrived when all loyal citizens should lend their best energies and efforts to building in this County a tax paying responsibility in the minds of our people. It is a well known fact that practically every thought advanced in this day is detriment to the best ideals in loyalty to country as tax paying citizens. The burdens of taxation are dwelt upon at much length but never a word sounded to create a feeling that it is a privilege to pay taxes. It is the disposition and common practice to discourage, rather than to encourage, citizens in payment of taxes and we include in this group, Mr. Average Citizen, and so-called Tax Payers' League, Societies and our own State Legislature. Who has raised a voice during the past ten years to enumerate the benefits and blessings derived from the tax money poured into the public treasury? When has the youth of our land heard one note sounded in behalf of public duty in the matter of paying taxes? We raise these questions, feeling we are warranted in doing so since it's generally known we are to retire from this work on January 1st, next, and it cannot be justly charged we have any motive, other than to discharge in a measure our duty.

Respectfully yours,
ROY LAW,
Tax Collector, Milam County, Texas.

Children Warned of Kite Dangers Near High Volt Lines

The danger of flying kites in the vicinity of electric wires was explained today by officials of the Texas Power & Light Company, who are appealing to parents to warn youthful kite fliers to keep away from wires.

"Whenever kites become entangled in electric wires, don't climb poles or use long sticks to remove it. Call the company and a lineman will be sent to get it down, if possible. Another wise precaution is not to fly kites during a rain, as a wet string is almost as dangerous as a wire should it come in contact with an electric line. Kites with metal frames or wood frames braced with wire, should not be used."

"Several fatal accidents already have occurred this spring as a result of boys flying kites too near electric wires," according to J. C. Young, district manager of the electric company, "and I want to impress on parents and children the dangers of letting kites and kite strings come in contact with wires. Above all, children should be cautioned never to use wire in the place of string when flying kites, for if the wire should fall across an electric line, the current would flash to the person holding it.

Why Get Up Nights?

USE BUCHU AND GIN

Make This 25c Test

It is as valuable to the bladder as castor oil to the bowels. Flushes out impurities and excess acids which cause the irritation resulting in getting up nights, burning, frequent desire, leg pains and backache. On account of the alcohol in gin use juniper oil from which gin is made. Ask for Bukets, the bladder laxative also containing buchu leaves, etc. After four days, if not pleased your druggist will return your 25c. Your are bound to sleep better after this flushing. Guaranteed by New Cameron Drug Company.

Knee Action Saves Life In Illinois

Chevrolet's "knee-action" with its consequent contribution to positive steering control is credited with saving the life of H. B. Moore, Indianapolis manufacturer.

In a letter to Chevrolet Motor Company, Mr. Moore, who is president of the H. B. Moore Company in the Indiana capital, makes this statement:

"I wish to say that 'knee-action' saved my life.

On March 6th on State Road No. 40 near Brownstown, Ill., I was going 70 miles per hour in my new 1934 Chevrolet coupe, when suddenly a truck pulled out on the highway, completely blocking it. To keep from hitting the truck head on, I had to take the ditch, hitting a ten-inch drain tile, breaking a left rear wheel and blowing out a tire, then made a perfect horseshoe turn on a farmhouse lawn and back across the ditch, coming to a stop on the highway right side up, thanks to the 'knee-action.'

"A local boy who witnessed the accident, came up to me and said, 'Mister, do you know what saved your life?' I asked him what he meant, and he frankly replied 'knee-action.' I readily agreed after he explained why.

"I had entire control of my car, otherwise I would not be alive today."

Easter Cantata At Presbyterian Sunday

An Easter Cantata, "Alleluia," will be given Sunday morning at 11 a. m. at the Presbyterian church. Mrs. Henry Sapp is directing the musical and Robert Smith will be at the pipe organ. The public is cordially invited to attend.

E. D. Kelso of Mayfield, for many years a reader of The Herald, was in Cameron Tuesday. He says the rainfall on Walker's Creek and Elm Creek was heavy and considerable damage will result to bottom farm lands.
